ARE YOU OBSESSED WITH PUSHING LIMITS? SO ARE WE.

WE THRIVE ON DRIVING THE TOUGHEST ROADS, WHERE OTHERS HESITATE TO VENTURE. DISTANCE DOESN'T INTIMIDATE US—IT PROPELS US. CONSTANTLY ADVANCING, WE EMBRACE ONE UNWAVERING TRUTH: IT IS OUR PASSION FOR THE UNKNOWN THAT DRIVES US FORWARD.

DIVE INTO THE ELECTRIFYING ESSENCE OF CUPRA FORMENTOR, WHERE EVERY MILE IS A STATEMENT OF OUR CONSTANT PURSUIT TO REDEFINE THE WAY OF DRIVING.

BEAUTY

Beauty is not merely observed; it's felt. It manifests as elegance amidst the fury of high winds, as boldness in moments of risk, or as grace in persevering with a smile when strength fails. We don't know much about beauty, but we understand it stretches beyond the skin. It resonates in the roar of an engine or in the delicate precision of a butterfly alighting on a finger.

While beauty remains elusive, we embrace the journey. Fastening the seatbelt, igniting the engine, we drive forward, aware that regardless of the path taken, beauty is all around us.

EXTERIOR STYLING

BOLD FRONT EVOLUTION

Discover the Formentor's transformed facade: a redesigned front bumper, boldly integrating the logo with redesigned fog lamps, crafting a statement of audacious style and improved aerodynamics.

ILLUMINATING ELEGANCE

The Formentor's rear captivates with an integrated, illuminated logo set within 3D infinite light, crafted with mesmerising LED technology for an iconic signature.

INTERIOR STYLING

A TECH SYMPHONY

The brand-new Formentor dashboard features a 12.9" infotainment screen with a backlit slider, merging a sizeable display, advanced operating system and atmospheric lighting for a captivating experience.

ELEGANCE AT THE HEART

The Formentor's central console redefines sophistication with a padded console, embroidered stitches, and parametric mouldings, blending futuristic aesthetics with sporty dynamism.

YOUR PRESTIGIOUS AURA

Formentor's ambient light system, with strategically placed LEDs, crafts a customizable, soothing glow, enhancing the dashboard, door panels, and interior for an immersive and inspiring experience.

BEAUTY

POWER

In existence, when all else fades away, power sometimes emerges as your only friend; transcending limits, infusing you with velocity, insight and purpose. Its presence clears your path, as others yield to your unexpected force.

Embrace power with firm conviction. It is your birthright, yours to wield, yours to deploy. CUPRA Formentor is about embodying it at every turn, every shift, every drive. Because the essence of taking a journey boldly is not to lose heart, but to harness and celebrate the raw, pure beauty of your own power.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

POWERING EFFICIENCY

Choose from three home chargers for the Formentor, each promising a fast charge without electrical overload, revitalizing your journey in less than 30 minutes with a DC charger.

PRIORITIZE FREEDOM

Experience the Formentor e-HYBRID's astonishing 272hp and >100km electric range, marrying swift charging with a seamless petrol transition and embodying unrestricted driving freedom.

CUPRA CHARGER CONNECT 2

The CUPRA Charger Connect 2 ensures your Formentor is powered swiftly and safely, offering both 1ph and 3ph versions for up to 11 kW AC Charging*.

CUPRA HOME CHARGING SOLUTIONS

The CUPRA Charger Connect 2 links to your home network, enabling remote access to updates and data directly through your smartphone, redefining charging convenience.

CUPRA CHARGER 2 PRO

Elevate your experience with the CUPRA Charger 2 Pro, featuring LTE connectivity and a certified MID electric meter for the pinnacle of charging sophistication.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you. Information regarding e-HYBRID vehicles is provisional.

* The Charger is able to reach powers of up to 22kW covering the maximum charging power of your CUPRA.

INNOVATION

If the world perceives one reality and you discern another, you might be on the path to innovation. This distinction marks your essence. Having the tenacity to embrace change is for the best. This isn't a burden; it's your gift. You're not merely expressing a desire to be different; you're signaling to your future self that conformity has no hold on you. Rejecting the mundane, you commit to excellence.

Your right to pursue innovation is non-negotiable. Go ahead and claim it.

The CUPRA Formentor has been awarded. The maximum 5-star safety rating by euro ncap.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

CONNECT

ENVIRONMENTAL INFORMATION

LIGHTS

Headlamps and rear lamps are 100% LED, increasing life service by up to 10 times. For headlamps, power consumption is significantly reduced at least 30%, and the luminous flux effectiveness is increased at least 30% in comparison to a halogen lamp.

RENEWABLE AND RECYCLED MATERIALS

Seat Bucket (no leather) configuration: Its seat central areas contain at least 73% of recycled textile.

Seat CUP Bucket configuration: Its seat central areas contain at least 71% of recycled textile.

ENGINES

e-HYBRID: The all-electric motor in the e-HYBRID engine enables zero emission driving in electric mode.

Diesel: 2.0l Diesel engines allow the use of R100 fuel. R100 is made from 100% renewable raw material (Hydrotreated Vegetable Oil, HVO), achieving a reduction of up to 90% in CO₂ emissions during its production, compared to a conventional fuel.

MANUFACTURING PROCESS

Between 2010 and 2023, we reduced the CO₂ emissions per manufactured car by 69.3%, while also cutting the energy demand per car by 33.3%. Additionally, we achieved a 45.1% saving in water consumption and a 78.9% reduction in waste generated per car.

In our path towards a circular economy, we have established a process for dismantling discarded parts and components. This process breaks down complex items into single-material parts, enabling proper segregation and giving these materials a second life. As a result, what was once considered nonrecoverable waste is now transformed into revalorized, reusable materials.

ZERO EMISSIONS

An indicator that shows the distance driver with zero emissions using electric-only mode.

E-RANGE MONITOR

Informs the driver of the increase in range of electric-only engine when combustion-only is off.

SEAT S.A.'s environmental mission.
Protect Climate. Conserve Resources. Preserve Ecosystems. Ensure Environmental Compliance.
